

Door Colour & Finish Options

Metador doors are available in a wide range of colour options and finishes to suit your project. Below are some of the most popular colour options, however, we can match to any RAL colour. As standard, these colours generally have a matt finish (30% gloss). Alternative finishes are available upon request.

Please note; the colours and finishes shown on this document are for illustration only. Colours will vary depending upon lighting conditions and the finish applied. Note that certain finishes e.g., pearl and metallic colours cannot be shown accurately.
