METADOR

DDA Compliant

Fully Glazed

For use in situations when aluminium is just not strong enough or where fire rating is required for a fully glazed system. The steel Defender Clearguard is stronger, more secure and lasts longer than aluminium systems.

For maximum vision from 60mm wide steel profile and ideal for prestigious and high-use locations.

Fire rated to up to 1 hour and/or thermally broken frames give endless possibilities to this impressive door system. We use a clip-in beading system, along with many different types of ironmongery including electric locks. Specified with anti-bandit glazing, this product is ideal for high security situations.

Finish

Powder coated to any RAL or BS standard and marine-grade option available if required.
